Sure—some things last a bit longer than CAU's new Three Year Association insurance policy.

In a world where the cost of goods and services seem to increase every day, here is an opportunity to bring some stability to your association's budget.

CAU's New Three Year Policy

Over the last few years the insurance market has seen its share of upheaval and turmoil. Major natural disasters and the recent financial crisis have brought uncertainty to associations seeking quality insurance.

CAU's Three Year Policy provides an association with a fixed premium for 36 months. Unless the Association modifies the coverage or any other information upon which the premium is based, CAU agrees that the annual policy premiums will not change for three years!

This great program comes with the benefit of being insured by CAU, one of the largest providers of community association insurance in the country. CAU's comprehensive insurance programs include coverages that are either expensive options or not offered by other insurance policies.

Call your experienced CAU insurance professional today to find out more about our new Three Year Policy and bring some stability to your association's insurance costs.

Sure—some things last a bit longer than CAU's new Three Year Association insurance policy.

In a world where the cost of goods and services seem to increase every day, here is an opportunity to bring some stability to your association's budget.

CAU's New Three Year Policy

Over the last few years the insurance market has seen its share of upheaval and turmoil. Major natural disasters and the recent financial crisis have brought uncertainty to associations seeking quality insurance.

CAU's Three Year Policy provides an association with a fixed premium for 36 months. Unless the Association modifies the coverage or any other information upon

which the premium is based, CAU agrees that the annual policy premiums will not change for three years!

This great program comes with the benefit of being insured by CAU, one of the largest providers of community association insurance in the country. CAU's comprehensive insurance programs include coverages that are either expensive options or not offered by other insurance policies.

Call your experienced CAU insurance professional today to find out more about our new Three Year Policy and bring some stability to your association's insurance costs.

The Management Trust

Connecting People to the Promise

The Management Trust is the only 100% employee-owned company in the community association management industry. Being 100% Employee Owned means that every one of our employees has a vested interest in the success of every one of our clients. Our structure as an ESOP brings with it a culture of entrepreneurialism that directly benefits each of our clients. Every employee who touches a client account has a vested interest in ensuring the job is done correctly and the promise to our client is fulfilled.

Building a community takes more than just hammers and nails. It begins with the promise of integrity, trust, experience and support. The Management Trust has grown alongside community associations, always looking ahead to promote harmony, community and responsible leadership.

Our success is based upon the belief that effective management anticipates our clients' needs, not merely reacts to them. Our strategic long-term management plans help communities create quantifiable objectives, allowing them to better define success.

Planning for the future connects people with the promise of having a great place to call home.
